

Schaerer Coffee Soul C

Redefining Innovation

The Schaerer Coffee Soul C is the newest bean to cup innovation from SEB Professional. The Coffee Soul C offers the freshly ground and brewed coffee we know and love – hot or cold – made on demand. This machine boasts new technologies and features, such as integrated automated daily cleaning, automated calibration of grinders, full bi-directional capabilities, a built in ADA panel, and more – all while reducing an operator's labor and waste.

Features and Benefits

- Fresh hot or iced coffee at a touch of button
- 12" HD touch display
- Ease of serviceability with easily removable brew unit and side panels without the use of tools
- Autsetup feature cuts machine setup time in half
- Auto Calibration guarantees in-cup quality and consistency across multiple sites and machines
- ProCare for automated daily cleaning without user intervention for 300 days
- Telemetry provides a 360-degree view of your coffee business with real-time data and advanced analytics (optional add-on).
- Bi-directional Capabilities provide full customization for menu layouts, order flows, color schemes and imagery
- ADA technology built directly into the drip tray
- Reduce waste – Brew what you sell
- Less labor – Eliminates much of the labor expense associated with drip brewers while maintaining quality and consistency
